Dear Supplier,

Brazeway strives to be a world class organization that consistently provides our customers with quality and value through constant innovation of our products, supporting our goal to "Obsolete Everything We Do." We believe this is possible with the collaboration of our engineers, our manufacturing associates, our customers, and a strong supply base. In order to achieve this goal, Brazeway seeks suppliers that subscribe to the same philosophy in order to compete in the global marketplace.

Attached, please find our new Brazeway Supplier Quality Manual to provide expectations for our long-term suppliers. Please pay particular attention to the Production Part Approval Process (PPAP) section of the manual. Brazeway's plan is to have Suppliers go through the PPAP process for new parts and services along with changes to current parts and services. The intent of this manual is to enable our suppliers to support Brazeway's goal of providing world-class products and innovation. The result will be future business success and growth for Brazeway, our customers, and our suppliers. The manual can also be found on our website: www.brazeway.com/About/SupplierInformation

Thank you for your support, and we look forward to continued collaboration and success!

Sincerely,

Ken Tidd
Director of Procurement

Chuck Force
Vice President, People & Procurement

Larry Meining
Senior Quality Engineer

Bill Dahn
Director of Quality

We appreciate the support of our suppliers and look forward to a future of continued collaboration
